RE: Survey Notification – Columbia Gas Transmission Pipeline B115
FRANKLIN County, Ohio
Tax Parcels: 170-001703

Dear WINDRUSH CREEK PROPERTY OWNERS ASSN:

Contractors for Columbia Gas Transmission (Columbia) will be conducting surveys along the subject pipeline to gather information for routine maintenance and construction to be performed in 2020. You are receiving this letter because you own property on or near the pipeline route where the surveys will be conducted. If a tenant resides, works on or farms your property please provide me with the tenant's contact information so they can also be notified of any Columbia activities on the property.

During the preconstruction phase of a project various civil, environmental and cultural resource surveys are conducted in areas where facilities are located, or other access or temporary workspace may be needed. Survey crews plan to begin the initial surveys during the month of September, with other surveys following later.

Some or all the following activities may take place during the surveys: placing wooden stakes in the ground, walking the property, cutting brush for survey line of sight, digging small holes and refilling them, walking along stream banks and wet areas, placing ribbons on brush and small trees, locating and marking with ribbons certain roadways and various open spaces.

All Columbia employees and contractors have identification and will show it upon request. If you have any questions about the surveys, or if you would like to provide any information about your property, please contact me using the email or phone number at the top of this letter.

Sincerely,

A handwritten signature in black ink that reads "Jim Scott".

Jim Scott
Land Representative
